

COBCOE POLICY

Policy Statement – Environment

COBCOE is committed to minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- To minimise waste by evaluating operations and ensuring they are as efficient as possible
- To actively promote recycling both internally and amongst its members and suppliers
- To source and promote products relevant to conducting the business of the organisation that aim to minimise the environmental impact
- To meet or exceed all the environmental legislation that relates to the organisation's business
- To encourage members to adopt an effective environment policy and strategy for their organisations
- To provide best practice exchange as part of COBCOE's annual Academy training programmes as needed
